

New Type soybeans grinder

# MIRACLE GRINDER

01 Control granularity with high stability

02 Hygienic

03 Less chance of mechanical problems

04 No minor adjustment required

05 Simple structure

06 Compact design

New Type soybeans grinder

# MIRACLE GRINDER

01 Adjust granularity just by changing the screen!

02 Sanitary design features all stainless steel liquid-contact parts and easy disassembly!

03 Transverse motor minimizes electric leakage.

04 Achieve stable production every day with no need for minor adjustments!

05 Simple structure allows fewer components and easy replacement.

06 Miracle Grinder can handle 264 to 1322 lbs of raw soybeans!

## Accolades

Stainless Grinder requires no granularity adjustment and that really helped us.

We had problems with making adjustments because I was the only person with enough experience.

The transverse motor minimizes the risk of electric leakage. I also love how simple it is.
